daily in receipt of letters from this region arrival painful accounts of the condition of thousands of our people.

The Kansas Central Relief Committee is in great need of money to buy fuel for the destitute in this severe cold weather; also to pay ireights on grain being shipped in from other states, and which the railroad companies cannot carry free on account of the bulk. Without the fuel our people will freeze, and without the necessary forage our teams will not be in condition to do the spring ploughing, and therefore will prevent both planting and harvesting. The committee is also in need of large quantities of seeds for spring planting. Contributions of money, clothing of other necessaries will be promptly acknowledged and forwarded if sent to G. V. RICKSECKER.

CARS FOR THE WORKING GIRLS.

TO THE EDITOR OF THE HERALD:

As the question of rapid transit seems as far from solution as ever (nearly a month having elapsed and nothing done by the Legislature), I have to suggest that action be taken at the earliest moment to reform the present miserable system of transporting passengers in this city. It are compelled by the authorities to afford better accommodation for brutes than is obtainable in the horse cars for human beings; and surely while women, children and men are packed together like swine daliy, without the slightest redress, one cannot regard the action of Mr. Bergh in procuring room for dumb animais in any other than a Quixotic light. The Board of Aidermen, however, still retain power over most of the city railroads, and I would urge upon them the importance, the necessity, of passing some act of enforcement requiring the companies to furnish during certain necessity, of passing some act of enforcement requiring the companies to furnish during certain hours of the day cars exclusively for females. For instance, say from six to line in the morning and from from five to eight in the evening, every third car to be for females only. The nours might doubtless be differently regulated to better advantage. They are merely suggestive on my part. The object I have in view is to afford accommodation for women generally, working girls in particular, and to protect them from the insults to which they are too often subjected while riding in the infamous sweat-boxes turnished by many of the city railroad companies. If any valid objection can be raised to the above arrangement I would be glad to hear it stated. Of course the companies will demur. It won't pay! Nothing ever pays in the way of accommodating the public; but sooner or later these monopolists must be made to feel that there are other things to be considered besides the payment of dividends. Mr. Editor, I am one of those who have faith that ultimately our street railroads will be managed directly by the city and that the existing evil will be entirely removed. That period, however, may be in the far future, and until it arrives it is proper that we should govern our public conveyances for the public accommodation. Therefore, I submit my proposition to the Common Council, hoping it may receive their prompt and lavorable attention, and I would appeal to the many gentlemen who are nightly witnesses to the discressed condition of those working girls, who, from not being able to these cars at their various termini, or who get on anywhere in West Broadway, Canal or Chatham streets, to urge, so far as it is in their power, the adoption of some measures to make the fairoad companies supply vehicles for the exclusive comiort and convenience of their female passengers.

BRAKESPEARE. passengers. New York, Jan. 25, 1875.

A NEW LINE OF STEAMERS.

Notwitnstanding the general depression comhas just been established betwen this port and England. Messrs. Wilson, Sons & Co., of Hull, England, have determined to run a line between their town and New York, the first vessel-the

Colombo—to sail from the other side January 30, and to be followed by the Virago and Yeddo. These ships are all of 3,000 tons burthen and 900 horse power, and have been running heretofore in the West Indies.

It is designed to land the cabin passengers by this line going from this port at Southampton, if they so desire. From Hull the Messrs. Wilson have vessels running weekly to Aberdeen, Dundied, Leith, Newcastle, Yarmouth, London, Hamburg, Antwerp, Rotterdam, Amsterdam, Dunkirk, Gottenburg, Stettin, Copenhagen, Konigsberg, Dantzic, Riga, Revel, Cronstadt and Stockholm, and every two weeks to Bergen, Slavanga, Bordeaux, Constantinople, Triest, Odessa, Messina, Palermo and Venice.

Should the line to this country prove successful the company will put on a number of larger and large number of cabin passengers. The agents of the line in this city are Messrs, Charles L. Wright & Co., of No. 56 South street.
